

December 1, 2003 – Dallas-based Risk Limited Corporation announced today that Dr. Rafael A. Campo has joined the firm as a senior advisor for the energy industry. Dr. Campo has previously served as an advisor on power market issues for companies and government agencies throughout the Western hemisphere and Europe. He has been an advisor to the International Energy Agency in Paris, the International Atomic Energy Agency in Vienna, and the Ecuadorian ISO.

Dr. Campo has a Ph.D. and a M.S. in industrial engineering and operations research from the University of California at Berkeley. He graduated with honors from the National University in Bogotá, Colombia with a B.S. in electrical engineering. He has done post-graduate work at Stanford University in artificial intelligence. Dr. Campo has taught at a number of universities as a visiting professor, including University of Michigan at Ann Arbor.

“Dr. Campo brings the expertise that our clients seek in terms of in-depth industry knowledge that comes from years of experience, coupled with truly exceptional quantitative skills. It is the winning combination required by our clients in the energy industry,” said Shannon Burchett, president of Risk Limited.

“It is a great opportunity to join a team that is involved in advising decision makers in the power industry and in implementing leading edge solutions for clients,” said Dr. Campo.

Risk Limited is a strategic management firm that provides a range of services including risk management services, strategic management advisory, merger & acquisition support, and educational forums for a range of international companies and agencies.
